Brushes have been invented for polishing either stoves or shoes that have a reservoir controlled by a valve, to feed polish to the bristles.

Use Eagle Want Ads and get results.

Of German invention is a machine for grinding steel balls for bearings that retains them within it until they are perfectly formed and sized.

Two Austrian dentists are the inventors of a process by which false teeth can be cast in metal and given the uniform density that is necessary.

The inventor of a new square funnel contends it operates more rapidly than a round one, which causes a rotary motion in liquids and delays their flow.

Mechanism sensitive to sound waves controls the apparatus that makes a wooden dog come out of a kennel when called in a new and expensive toy.

Read Eagle Want Ads; they are small but mighty.

## FOURTH FIRE WITH- IN TWO MONTHS

Missouri State Penitentiary Visited Again Today by Fire Which Started in Paint Shop.

(By Associated Press.)

Jefferson City, Mo., Sept. 15.—The fourth fire within two months occurred today in the paint shop of the state penitentiary here within the prison walls. The fire was soon extinguished with a loss of \$1,000. This, like the other three fires, is attributed to the convicts by the officials, but they are unable to place the blame.

### NEW E. E. INSTRUCTOR ARRIVES FROM MAINE

Prof. W. G. James, newly elected instructor in the Electrical Engineering Department of the A. and M. College arrived in the city yesterday afternoon from Orono, Maine. Prof. James was accompanied by his wife and a sister, Miss Opal James and will locate at some place in the city of Bryan to reside. Prof. James is a native of Kansas but has been teaching the past few years in the University of Maine.
